

Complete Python Guide

Tips & Usage

EVERYONE IMPORANT: Steps to become a good developers

1 ▶ Always learn in one resources which is attached below or which we share further and compare or get clear your doubt on other resources

2 ▶ A good programmer makes a document (Digitally) on each concepts that he learns it contains theory in simple understandable words along with respective pitcher of code/code for each concepts

- **Notes that i made:** platform (**Notion**)<https://codershandbook.notion.site/Java-Notes-90f8ccf0c23242c0bd407291535fae40>
- you can also use ***Notion*** digital documentation

3 ▶ *For example* I'm reading some concepts in some website/resources, in that website/resource the concepts are little tough or not able to understand or the information is less. So what you can do at that time. Use other resources which is provided or watch any YouTube videos/other video oriented things to understand those concepts

4 ▶ If possible please don't waste your precious time by watching lengthy videos of some simple concept
